GENERAL.

Proceedings of the Government of Mysore,

READ—

Letter No. 232, dated August 1901, from the Census Superintendent and Director of Statistics in Mysore, submitting the file of correspondence regarding the claim for travelling allowances to certain officials detailed by the Deputy Commissioner of the Chitaldrug district, for Census duty beyond a radius of five miles from their Head-quarters, together with the Comptroller's objection to allow the claim on the ground that a similar claim advanced in connection with the Census of 1891 was disallowed under Government Proceedings No. 13010-12—G. 2772, dated 25th January 1893; and requesting under the circumstances explained that the officials deputed for duty during the present Census may be allowed travelling allowances under the ordinary rules.

No. 5695-6—P. & A. 400, DATED BANGALORE, 2ND OCTOBER 1901.

ORDER THEREON—The Government are pleased to sanction travelling allowances under the ordinary rules being granted to such officials as were deputed for Census work at the last Census.

Annual Report on the working of the Stationery Department for the year 1900-1901.

No. 5878—MIS. 963, DATED BANGALORE, 5TH OCTOBER 1901.

ORDER THEREON.—The year under review opened with a balance of stock amounting in value to Rs. 38,070-5-10, to which was added stock of the value of Rs. 1,09,282-8-10, making a total of Rs. 1,47,352-14-8, while the cost of issues was Rs. 98,659-7-4, leaving a balance of stock at the end of the year of the value of Rs. 48,693-7-4.

2. There was an increase of Rs. 9,575-2-8 in the value of paper issued to the Press for printing purposes, which was due to the supply of special paper for Registers of the Registration Department and for Census work, while on the other hand there was a decrease of Rs. 958-2-6 in the value of the quantities issued to Public Offices and Departments, notwithstanding the six additional offices supplied.

3. The Superintendent again complains of the continued delays on the part of Officers in forwarding their indents for stationery and printed forms. Heads of Departments and other Officers concerned are requested not to allow such delays in future.

EDUCATION

Proceedings of the Government of Mysore,

READ—

Letter No. 1788, dated 16th September 1901, from the Officiating Senior Surgeon and Sanitary Commissioner with the Government of Mysore, forwarding the following report drawn up by Mr. S. V. Ramaswamaiengar, the Government Oculist, on the health of the eyes of the pupils attending certain Schools and Colleges situated both in the Mysore State and in the different parts of India :—

Subsequent to the order given to me by Government in April 1900, to inspect the Central College and report to them my impressions as to the effects of the mental work on the health of the eyes of the pupils attending it, I have visited eighteen other Schools and Colleges in different parts of India, seeking types of nationalities differing from one another in mental calibre and physical constitution, and made the investigations which I now embody in a report, and beg leave to submit to the Government through you the results of my observations. These observations, mostly, having been made during my privilege leave, have been necessarily fragmentary and limited in extent, but they have still been sufficient to bear in upon my own mind some definite conclusions and they will, I trust, be thought by you to possess some general value and significance, and to justify, perhaps, a further and more complete investigation of the questions to which they refer. The general results of my observations on the schools which I have visited are to confirm the opinions which I ventured to state in my report on the Central College, to the effect that a hot-house system of education does exist, that it is exerting appreciable evil effects on the advanced students in the College Department (*vide* my Tables 1 and 2) and that, if unchecked, it is likely to entail very serious consequences on future generations. It would be impossible to deny that the manner in which the eyes are used during youth and adolescence may exert a definite influence upon their development and their functional activity: or to deny that this influence, when exerted upon those who will afterwards become parents may entail consequent modification of structure upon offspring.

(2) When we consider that this vast army of students is composed of those to whom the destiny of the nation may be some time committed, it is obviously important that great care should be exercised to avoid physical degeneracy of eye-sight during the years of school-life, which are also the years of physical growth. It is plainly important, therefore, that due regard should be paid to the hygienic environments of the children and that the work of the schools should be so regulated that it shall rest as lightly as possible upon the growing child.

(3) The tables worked out, herein appended, will speak for themselves. In them one will see that there is abundant and convincing evidence that the vision of children is constantly deteriorating during the school-period. The truth is the eye is unequal to the task which is too often expected of it. The use of vision for near objects is becoming constant, and that for distant occasional.

(4) It is to myopia that most of my remarks apply. Myopia—or short-sight-is rarely congenital: it is sometimes present in early life, but it usually makes its appearance about the 8th year; it is greatly due to work at near points during school-life. It is the more serious condition as far as vision is concerned. From the various histories I have heard from students, there is, in my opinion, no doubt that during school-life eyes which previously gave no indication of such a condition have become near-sighted and in others the degree of myopia has become aggravated.

(5) The long continuance of close work with imperfect light, a stooping posture, with, in several cases, brain and body fatigued, are among the causes which lead to this end. I also found that myopia increased steadily both in numerical prevalence and in degree as school-life was prolonged, being least frequent and least pronounced in the elementary classes, more frequent and more pronounced in the High School classes, and most frequent and most pronounced in the College classes. Myopia, as met with in schools, has been styled "School-Myopia." The majority of schools, affiliated as they are to the present system of examining Universities, is over working the pupils Besides, the five or six hours of nearly continuous work in school, extra hours are spent at home in preparation of home-work and school-work; add to this, test examinations, quarterly, half-yearly and

yearly, and University examinations; over and above these facts you have ambition and the struggle for existence. When all these factors are put together, it is no wonder that pupils "burn the midnight oil." It is indisputable that evening work by artificial light is peculiarly detrimental to vision, and conducive to that short-sightedness which is increasing amongst us so rapidly. Since it is well known that day light is far superior to artificial light, I would advise that all study that can be done by boys in day light should be accomplished then, and not put off till day has gone. No artificial lighting can make up for day light. An unsteady light is dazzling and fatiguing: nor should the light be placed too near the eye, because the heat emitted is injurious and occasions discomfort. The light should be sufficient and not dazzling, as is generally the case with poor cheap lamps, with a reflector at the back.

(6) Overwork during the period of nervous development is especially hurtful. The eyes cannot with impunity bear the long continued strain to which they have so frequently to submit. This remark, I believe, applies to all nationalities—be they Hindus, Parsis or Anglo-Indians—be they boys or girls, be they poor or rich, be they literate or otherwise. From experience and an examination of eyes that have included Mysoreans, Tamilians, Bengalis, Punjabis, Sikhs, Gujaratis, Parsis, Mussalmans, Eurasians and Europeans, I have come to the conclusion that the percentage of abnormal vision increases with advancing years and study and with the lengthening hours of study. If any set of pupils (*vide* Tables appended) enjoys better vision, it is partly due to better arranged time-table of study and recreation. The intervals of rest in the hours of study, even if short, should be frequent. The M. A. O. College at Alligarh and the Mayo College at Ajmere are peculiarly fortunate in this respect. In these two places especially, I am glad to say, work is not made heavy.

(7) Since some of the factors that naturally tend to deteriorate the eyes of the pupils exist, and since they cannot all be done away with, the authorities who have the welfare of pupils at heart should encourage steady, methodical work, and fairly diffused throughout the day, month and year. If such work is superintended by kindly and judicious teachers, it can be done with perfect ease by any youth in ordinary health who has a liking for study and for intellectual pursuits.

(8) In this connection I must say a word or two about school-rooms and light. An ideal school, like what the Americans possess in their large cities, may be difficult to find in ours. Even in the capital of India and in Bangalore I know there are schools which are quite unfit for such a purpose. The rooms were so dark, dingy and cold that I had to conduct my examinations at or near the entrance on the verandah. When I entered some of the rooms, they were so dark that it took me some seconds before I could recognise faces. Very few of the rooms in them had light falling on the desks and benches from the left side and in many of them there were cross-shadows. From the standpoint of the Ophthalmologist the ideal school-room is lighted only from the left side or the left and the rear of the pupils. In every properly constructed school-house lighting from opposite sides should be avoided under all ordinary circumstances, since it occasions cross-lights and perverse shadows. The uncouth and irregular postures of the pupils in the classes are occasioned in large part by the struggle to avoid the shadow of the hand, which falls directly at the point of observation. The uncouth postures assumed by boys should be rectified, since constant stooping forward of the head, as is generally the case with tired out boys, is the most effective factor in the increase of myopia. The extra hours occupied at home in preparation of school-work should be dispensed with, at least in the case of children who are below ten. Parents should see that their children are provided with good lamps, that these are placed at a comfortable distance on the left side and that they do not go on studying more than two or three hours at a stretch, at the most, that the work, be it at books, needle, drawing or piano, is done in good sufficient light.

In conclusion, I beg to acknowledge that I am greatly indebted for courtesies extended to me by the Principals, Head Masters and Head Mistresses of Colleges and Schools I visited. All of them have aided me in securing data for this report.

No. 5805-7—Ed. 129, dated Bangalore, 4th October 1901.

Order thereon—Recorded with thanks.

2. The report, which is as interesting as it is full of useful hints, will, with its accompaniments, be printed and circulated for the information of the Heads of Educational Institutions in Mysore.

Letter No. 3402—116, dated 3rd October 1901, from the Inspector General of Education in Mysore.

I have the honor to inform you that during my last tour I spoke to some Inspecting Officers of the Department as well as Police Officers to make efforts to establish schools for Lambanis in their districts. The total number of Lambanis returned at the Census of 1891 was 39,137, spread all over the Province but congregated mostly in the Shimoga, Kadur and Chitaldrug districts. It is hoped that when Lambanis are brought under the influence of education they will become more amenable to laws and need much less supervision on the part of the Police than at present.

(2). The following account of Lambanis is given in the Report of the Census of 1891.

"They live in detached clusters of rude huts, called thanda, which are mostly pitched away from villages on high grounds affording them coigns of vantage for reconnaissance in their predatory excursions. Education is unknown among them, and their violations of the law are much stimulated and intensified by habitual intemperance. Their common occupation is the transport of grain and other produce by means of herds of pack-bullocks, especially in the more hilly and forest tracts difficult of access. Their name has become a bye-word for crimes of violence. They are desperate marauders, and their jealous isolation from the ordinary populations and the unintelligibility of their lingo enable them to carry out successfully many a campaign of dacoity and robbery."

(3). In the Chitaldrug district the languishing Begari school at Konsagara in Molakalmuru taluk has been transferred to Narenahalli in Jagalur taluk for the benefit of Lambani children. In the Hassan district the Holeya school at Arekere in Arsikere taluk which was languishing has been transferred to Gondanahalli in the same taluk for the education of Lambani children. It is a hopeful sign that in both places the Yejamans of Lambanis showed great interest in the question of the education of Lambanis and eagerly accepted the Deputy Inspector's proposal to open schools for their tribe.

(4). The Deputy Inspector of Shimoga has, with the help of the Police Superintendent, opened two Lambani schools from the 1st of this month at Bendekatte in Shikarpur taluk and Palavanhalli in Honnali taluk and requests sanction for the teacher's pay which he has fixed at Rs. 10 and Rs. 12, respectively. The pay is somewhat higher than in most Hobli schools as men possessing tact and judgment have to be employed to make the schools a success. He also proposes to open four more schools in Shikarpur, Honnali and Kumsi taluks. A tabular statement giving particulars of the six schools is appended to this letter. The total cost of the six schools will be Rs. 68 a month. I request that as a special case for encouraging education among a hitherto neglected and backward tribe, just when a desire of education is springing up among them, a sum of Rs. 612 may be sanctioned for the nine months from 1st October 1901 to 30th June 1902 either from the general savings of the Village School Fund budget or from the balance of the fund on 30th June 1902, and the full annual provision of Rs. 816 ordered to be made in the budget of 1902-1903.

(5). I request that permission may be given to me to propose more schools for Lambanis as occasion arises without reference to a provision in the budget, as I wish to familiarize the minds of Lambanis with the necessity and usefulness of imparting some education to their children.

No. 6827-8—ED. 154, DATED BANGALORE, 28TH OCTOBER 1901.

ORDER THEREON—A sum of Rs. 612 is sanctioned from the savings in the current year's Village School Fund budget, towards the cost of the six Lambani schools mentioned in the appended list.

2. The Inspector General may send up proposals for similar additional schools provided that the cost thereof can be met from savings in the sanctioned budget and without any supplemental grant therefor being required and that the Lambani boys concerned cannot be induced to join any of the schools already in existence.

JUDICIAL

Proceedings of the Government of Mysore,

READ—

Memo No. 4278, dated the 28th August 1901, from the First Assistant to the Resident in Mysore, forwarding a copy of the following letter No. 2543—C., dated the 9th August 1901, from the Government of India, Military Department, to the Adjutant General in India :—

I am directed to acknowledge the receipt of your letter No. 2287—D, dated 29th July 1901, forwarding for approval a draft amendment to Rule 24 of the Rules relating to shooting and to the grant of shooting passes.

(2) In reply, I am to say that the Government of India approve the proposed amendment.

ENCLOSURE.

Rule 24 of the Rules relating to shooting by British Warrant Officers, Non-Commissioned Officers and Private Soldiers, and to the grant of shooting passes, is amended to read as follows :—

"24. Shooting passes, if granted to Regimental Warrant Officers, Sergeants and Men with two or more good conduct badges, shall not extend to more than 14 days; and if granted to other men shall not extend to more than 7 days."

No. 5613-26—J. 438, DATED BANGALORE, 1ST OCTOBER 1901.

ORDER THEREON—Communicated to the District Magistrates in Mysore, for information and guidance, in continuation of Government Proceedings No. 4060-68—J. 294, dated the 3rd September 1901.

H. V. NANJUNDAYYA,
Secy. to Govt., Gen. & Rev. Depts.

To—All District Magistrates.

The Inspector General of Police in Mysore, for information.

READ—

Letter No. 1105-J., dated the 20th July 1901, from the Inspector General of Police in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to forward herewith in original (to be obligingly returned when no longer required) letter No. 100, dated 16th instant, from the Superintendent, Central Jail, Bangalore, and to request that you will be so good as to inform me whether Government will accord sanction to prisoners detained in lock-ups, earning good conduct marks for the period of their sentences which they may have spent in the lock-ups.

ENCLOSURE.

I have the honor to state that under the Mark Rules published under Government Notification No. 11788—J. 1458, dated 18th April 1899, every convict whose substantive sentence or aggregate of substantive sentences amounts to one year or upwards is entitled to earn remission from the 1st day of the calendar month following that in the course of which he is sentenced (*vide* Rule 5).

(2) In the case of direct admissions into this Jail, this rule is given effect to. But in the case of convicts sent to this Jail from lock-ups where they are generally kept until the disposal of their appeals or appeal time and are thus not sent to this Jail often until after the expiry of several months, I find the rule is not observed. No such prisoner has ever brought to this Jail any record of remission earned, from which, I infer, that marks are not awarded in the lock-ups, a practice for which I do not see any justification.

(3) It is due to such convicts that the matter should be represented to you. Yesterday I received four convicts from the Chikmagalur lock-up with terms of one year and upwards and none of them has any record of remission earned although the dates of sentences are 20th March 1901, 20th March 1901, 29th March 1901 and 17th May 1901, respectively.

No. 6113—J. 491, DATED BANGALORE, 10TH OCTOBER 1901.

ORDER THEREON—Government observe that the Rules published under Notification No. 11788—J. 1458, dated the 18th April 1899, are intended to apply to prisoners of all classes wherever confined.

2. The explanation of the Officer in charge of the Lock-up at Chikmagalur as to why no record has been made of the remission earned by the convicts referred to by the Superintendent, should be obtained and submitted as early as possible.

LEGISLATIVE

Proceedings of the Government of Mysore,

READ THE FOLLOWING PAPERS—

Extract from letter No. 1614, dated 31st August 1900, from the Registrar of the Chief Court of Mysore :—

* * * * *

"A number of certificate cases which have now to be disposed of by the Chief Court under Act XXVII of 1860 can go before the Sub-Judge of Bangalore if the later Act VII of 1889 (now in force in British India) is extended to this Province, as the Sub-Judge can then be invested under Section 26 of that Act with powers of a District Court in the matter. * * * * * * "

(2) Letter No. 5652--Legis. 43, dated 25th October 1900, from the Officiating Dewan of Mysore, to the Hon'ble the Resident in Mysore :—

"I have the honor to forward a copy of draft of the Succession Certificate Regulation, intended to supersede Act XXVII of 1860, which, though repealed in British India by Act VII of 1889, still continues to be in force in Mysore. The later Act permits of Subordinate Judges being invested with the powers of a District Judge in the disposal of certificate cases, a course recommended by the Chief Court with special reference to the Subordinate Judge of Bangalore to afford immediate relief to the Judges, who have now to dispose of numerous miscellaneous applications under the existing law to the detriment of more important work.

2. The draft Regulation is based on the Indian Act VII of 1889, with the omission of references to enactments or proceedings not applicable to Mysore and with other similar alterations incidental to the process of adaptation. It may be noted also that, when the Court Fees Regulation, III of 1900, was recently passed, Articles 10 and 11 of Schedule I thereof were retained as in the old Court Fees Act, pending the introduction of a Succession Certificate Regulation on the lines of Act VII of 1889. The present opportunity has therefore been taken of amending the said Articles as in Section 13 of the Draft Regulation.

3. With these remarks I beg that you will kindly obtain the approval of the Government of India to the Draft Succession Certificate Regulation being passed into law."

(3) Letter No. 6102, dated 20th November 1900, from the First Assistant to the Resident in Mysore :—

"I am directed to acknowledge the receipt of your letter No. 5652—Legis. 43, dated the 23—25th October 1900, forwarding for the approval of the Government of India a draft of the Succession Certificate Regulation intended to supersede Act XXVII of 1860.

2. Before forwarding the draft Regulation to the Government of India for sanction, I am to invite your attention to the following points :—

(1) The inclusion of—

(a) any promissory note, debenture, stock, or other security of the Government of India, and

(b) any bond, debenture or annuity charged by the Imperial Parliament on the revenues of India, in the definition of "Security" in Section 3 (2) of the draft Regulation might have the effect of misleading the public in Mysore into the belief that certificates granted by the Mysore Courts in respect of the above securities would be valid in British India, while in fact they do not appear to be so. For under section 17 of the British Indian Act, VII of 1889, a certificate granted to a resident in Mysore would be valid in British India only when it is granted by the British representative. The words "of India or" in clause (a) and the whole of clause (b) of Section 3 (2) of the draft Regulation might therefore be expunged.

(2) The omission in Section 4 (1) of the draft Regulation, of clause (ii) of Section 4 (1) of the British Indian Act, VII of 1889, which runs as follows :—

'a certificate granted under Section 36 or Section 37 of the Administrator General's Act, 1874, and having the debt mentioned therein, or,' does not seem to be correct. For, the Administrator General's Act applies to British subjects of Her Majesty in the Mysore State; and the omission of the clause quoted above would have the effect of rendering the certificate granted under the provisions of Sections 36 and 37 of the Administrator General's Act inoperative in respect to assets left by a British subject of Her Majesty in Mysore territory. The omission might be supplied by inserting the words 'or under Section 36 or Section 37 of the Administrator General's Act, 1874' after the words 'a certificate granted under this Regulation' in Section 4 (1) (ii) of the draft Regulation.

(3) I am to enquire whether there is any objection in the opinion of the Durbar to the amendment of the draft Regulation as suggested above."

(4) This office letter No. 8133—Legis. 66, dated the 17th December 1900, to the First Assistant to the Resident in Mysore :—

"I am directed to forward copies of the marginally noted correspondence containing the opinion of the Durbar and of the Chief Court of Mysore on the amendments to the draft Succession Certificate Regulation suggested in your letter No. 6102—539, dated the 20th November 1900.

(1) Letter No. 7368—Legis. 54, dated the 26th November 1900, from the Officiating Secretary to the Government of Mysore, General and Revenue Departments, to the Registrar of the Chief Court of Mysore.
(2) Letter No. 3815—123, dated the 4th December 1900, from the Registrar of the Chief Court of Mysore to the Secretary to the Government of Mysore, General and Revenue Departments.

2. For reasons explained therein, the Durbar do not consider it advisable to omit the reference to securities of the Government of India in Section 3, clause (2).

3. They have, however, no objection to the insertion of the words 'or under Section 36 or Section 37 of the Administrator General's Act, 1874,' after the words 'a certificate granted under this Regulation,' in clause 1 (ii) of Section 4 of the draft Regulation."

(Enclosure No. 1 to the above.)

Letter No. 7368—Legis. 54, dated the 26th November 1900, from the Officiating Secretary to the Government of Mysore, General and Revenue Departments, to the Registrar of the Chief Court of Mysore :—

"I am directed to forward a copy of the First Assistant to the Resident's letter No. 6102—539-1900, dated the 20th November 1900, making certain suggestions in regard to the draft Successions Certificate Regulation, a copy of which, as well as of the Indian Act VII of 1889, on which it is based, is enclosed in original for reference and obliging return.

2. One of the suggestions made relates to the inclusion, in clause (1) of Section 4 of the draft Regulation, of a reference to certificates granted under Sections 36 and 37 of the Administrator General's Act, 1874. The Government would be glad to have information as to whether such certificates are now acted on by the Courts in Mysore ; if not, whether, in the opinion of the Judges, a provision enabling them to act thereon in future is necessary or desirable on other grounds.

3. The other suggestion made by the Hon'ble the Resident, *viz.*, the omission, in the definition of 'security' given in Section 3, clause (2), of the reference to securities, etc., of the Government of India, seems to be due to a misapprehension. Certificates granted by the Mysore Courts are expressly limited in their operation to the territories of Mysore (*vide* Section 15), and the mere inclusion of securities, etc., of the Government of India in the general definition of 'securities' cannot, in the opinion of Government, involve the result apprehended by the Resident, or lead to any misconception in the minds of the public in Mysore. On the contrary, the omission of the reference in question would have the effect of ousting the jurisdiction of Mysore Courts, and of depriving parties of the benefit of the new Regulation, in cases where the assets left by a deceased person in Mysore consist, as they quite conceivably may, in whole or in part, of securities of the Government of India. The point is, however, one on which the opinion of the learned Judges of the Chief Court would also be valuable.

4. The favor of an early reply is requested."

(Enclosure No. 2 to the above.)

Letter No. 3815—123, dated the 4th December 1900, from the Registrar of the Chief Court of Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments :—

"With reference to your letter No. 7368—Legis. 54, dated the 24th ultimo, forwarding copy of a letter from the First Assistant to the Resident making certain suggestions in regard to the draft Succession Certificate Regulation and requesting the opinion of the Judges thereon, I am directed to state that the suggested omission of clause 2 (b) and of the words 'of India or' in clause 2 (a) of Section 2 of the draft Regulation is apparently due to the limitation of the scope of the Regulation contained in Section 15 having been overlooked. With this express limitation provided in the Regulation itself, there appears to be no necessity for the omissions suggested. On the contrary, as observed by Government, the omissions would have the effect of depriving parties resident in the Mysore Province of the benefit of obtaining on the spot the requisite certificate for the realisation of assets in Mysore consisting of the securities of the Government of India, etc.

The other suggestion as to the insertion in Section 4, clause 1 of the words 'or under Section 36 or Section 37 of the Administrator General's Act, 1874' may be adopted, with advantage."

(5) Letter No. 50—539-1900, dated the 4th January 1901, from the First Assistant to the Resident in Mysore :—

"I am directed to acknowledge the receipt of your Secretary's letter No. 8133—Legis. 66, dated the 17th December 1900, forwarding copies of correspondence with the Chief Court of Mysore on the subject of certain amendment to the draft Succession Certificate Regulation which it is proposed to introduce into Mysore.

2. With regard to the suggested omission of the reference to securities of the Government of India in Section 3 (2) (*a*) and (*b*) of the draft Regulation, the Durbar and the Chief Court of Mysore appear to be of opinion that because the succession certificates to be granted by the Mysore Courts under the proposed Regulation are, under Section 15, expressly limited in their operation to the territories of Mysore, therefore the said Courts can, by granting such certificates, authorise the realisation of securities issued by the Government of India which may form part of the assets of a deceased person in Mysore. I am to point out that, as the securities of the Government of India are issued by the Public Debt Office at Calcutta and applications for the payment of interest thereon or for the negotiation or transfer of the same have to be made to that office, only a certificate under the Indian Succession Certificate Act, VII of 1889, can have effect with reference to such securities and that a certificate granted by a Mysore Court under the proposed Regulation, which will, admittedly, be limited in its operation to the territories of Mysore, will be useless for the purpose. In this connection, I am to forward for the information of the Durbar a copy of an application dated the 22nd March 1894 made to the Court of the Resident in Mysore by the representatives of one Narasimhaiengar, a deceased subject of the Mysore State, from which it will be seen that though they (the applicants) had obtained a succession certificate from the District Court in Mysore in respect of the assets of the deceased, including stock certificates for Rs. 4,000 the Public Debt Office refused to recognise the certificate and that consequently a certificate from the Resident under Section 17 of Act VII of 1889 became necessary. The instance now brought to notice serves to show, notwithstanding the expression of opinion on the part of the Durbar contained in para 3 of the Officiating Secretary's letter No. 7368, dated 26th November 1900 to the address of the Registrar of the Chief Court, that there would be a real danger of misconception in the minds of the public in Mysore if the Regulation be passed as proposed.

3. In these circumstances, it seems to be clear that the grant of a certificate by a Mysore Court with regard to a British security, even though it be held in Mysore, can be of no benefit whatever to a person who wishes to receive the interest on such a security ; and I am to suggest that the opinion of the Durbar may be reconsidered on this point."

(Enclosure to the above.)

Colonel P. H. Henderson, C. S. I., British Resident in Mysore.

Petition of—

1. B. Ranga Iyengar, son of the late B. Narsimhaiengar, age 20 years and 8 months, residing at Bangalore.
2. B. Timmappa, age 6 years and 8 months ; and
3. B. Krishnaiengar, age 5 years, sons of the aforesaid B. Narsimhaiengar, minors by their mother and guardian Vedanayikamma.

Humbly showeth,

That their father, the late B. Narsimhaiengar was a subject of the State of Mysore, and Munsiff of Seringapatam. He died at Seringapatam on the 24th June 1890.

2. That the deceased has left behind him three sons (the petitioners) and five daughters.

3. That the deceased held stock certificate No. 302—155 of Madras of the Book Debt of the four per cent loan of 1842-43 for Rs. 4,000.

4. That the amount of the said stock certificate was the self-acquired property of the deceased B. Narsimhaiengar, which petitioners, as his heirs are entitled to recover.

5. That in the certificate of heirship obtained from the Court of the District Judge of Mysore, the said stock certificate was also included ; but the Public Debt Office stated that authority of the said heirship certificate could not be recognised in respect of the said stock certificate.

6. That the petitioners therefore pray that a certificate under the provisions of Section 17 of the Succession Certificate Act may be granted to them empowering them to collect the amount of the said stock certificate and to receive the interest due thereon.

22nd March 1894,
Bangalore.

Signed B. Ranga Iyengar,
Vedanayikamma.

We, B. Ranga Iyengar and Vedanayikamma, do declare that the above is true to our knowledge, except as to matters stated on information or belief and that as to those matters we believe them to be true.

Signed B. Ranga Iyengar,
Vedanayikamma.

6. This office letter No. 1023—Legis. 5, dated the 20th July 1901, to the First Assistant to the Resident in Mysore:—

"Adverting to correspondence ending with your letter No. 50—539-1900, dated the 4th January 1901, I am directed to state that the Durbar on reconsideration accept the suggestion to omit the reference to securities of the British Government in clauses (*a*) and (*b*) of Sub-section (2) of Section 3 of the draft Succession Certificate Regulation, and to request that the draft Regulation as thus modified may be kindly submitted to the Government of India for approval."

(7) Letter No. 4513, dated the 10th September 1901, from the First Assistant to the Resident in Mysore, stating that the draft Succession Certificate Regulation as modified in the copy submitted with letter No. 1023—Legis. 5, of the 20th July 1901, has been sanctioned by the Government of India.

No. 6165—Legis. 33, dated Bangalore, 11th October 1901.

Order thereon—Ordered that the draft Regulation to facilitate the collection of debts on successions, and afford protection to parties paying debts to the representatives of deceased persons, which received the assent of Her Highness the Maharani-Regent on the 5th day of October 1901, be promulgated.

No. 6747-60 —L. F. 21-1900, DATED BANGALORE, 28TH OCTOBER 1901.

ORDER THEREON—This review relates to the accounts and reports on the working of the District Funds for the year 1899-1900.

2. There were during the year ten Local Fund Circles or one more than in the previous year, the special Local Board called "The Kolar Gold Fields Sanitary Board" having been established on the 16th November 1899, under the rules published with Government Notification No. 3241—Leg. 20, dated 4th September 1899. The affairs of the newly constituted Circle were managed by a Board consisting of seven members, of whom three were officials and four non-officials, those of the remaining Circles being managed by Boards constituted under the late Chief Commissioner's Notification No. 110, dated 4th July 1874, and consisting of seven non-official members and of *ex-officio* members composed of the Deputy Commissioner as President, with Assistant Commissioners in charge of Sub-Divisions or taluks, the Executive Engineer, the Civil Surgeon and the Amildars of the several taluks in the district, as members.

3. The number of meetings held during this year and that of the previous year are given side by side in the following statement:—

	L. F. Circles	1898-99.	1899-1900.
1.	Bangalore	3	3
2.	Kolar	4	4
3.	Kolar Gold Fields	0	9
4.	Tumkur	5	5
5.	Mysore	3	2
6.	French Rocks	3	4
7.	Hassan	4	4
8.	Shimoga	6	6
9.	Kadur	3	4
10.	Chitaldrug	4	4

Though, under the rules in force, at least four meetings should be held every year, only three and two meetings were held in the Bangalore and Mysore Circles, the reason being that in Bangalore the fourth meeting was not held as the President had other important and urgent work to attend to, while in Mysore it was considered undesirable to convene more than two meetings, owing to the prevalence of plague in the City as well as in the outlying parts. The reason assigned by the President, Bangalore Circle, is not quite satisfactory as it should not have been difficult to arrange for the usual meetings without interfering with other business.

4. The total revenue credited to the District Funds of the several Local Fund Circles during the year was Rs. 5,81,220, as against Rs. 5,79,353 realized in the preceding year. Of the former sum, Rs. 5,08,087 or 87·4 per cent was collected from the 76 per cent of one anna cess on land revenue, &c., Rs. 37,233, or 6·2 per cent from cattle-pounds, Rs. 11,070,* or 1·9 per cent from tolls, Rs. 4,574, from mohatarfa specially made over to the Kolar Gold Fields Sanitary Board under Government Proceedings No. 5301-2—L. F. 17-99, dated 3rd November 1899, and the rest from miscellaneous sources. The incidence of the above revenue distributed over the population of the State, excepting the City of Bangalore, where the local cess was transforred to the Bangalore City Municipality amounts to Re. 0-2-1 per head as in 1898-99.

	Rs.
*Tolls ...	10,729
Local cess on toll revenue ...	341
Total ...	11,070

5. The expenditure during the year amounted to Rs. 6,21,564, or Re. 0-2-3 per head. Of this, Rs. 3,04,007, was for the construction and repair of roads, Rs. 55,077, for affording accommodation to travellers, Rs. 58,957, for affording medical aid to the poor and Rs. 2,03,521, for sanitary and other charges.

6. The percentage of charges to receipts in each Local Fund Circle is given below:—

No.	Local Fund Circles.	Percentage.

9. From the above, it will be seen that the income of the year rose from Rs. 5,79,353 to Rs. 5,81,220, while the expenditure fell from Rs. 6,52,335 to Rs. 6,21,564, which has resulted in the reduction of the closing balance from Rs. 2,82,487 to Rs. 2,42,143. The percentage of closing balances to receipts is given hereunder. The Presidents of the French Rocks and Kadur Local Fund Circles, where there are debit balances, will be requested to take steps to reserve the prescribed minimum balance as early as they can manage to do so.

11. Except in Bangalore, Mysore, Shimoga and Kadur Local Fund Circles, there was a general falling off of revenue during the year under "76 per cent of the local cess." The decrease was attributed to the diminished collections of land revenue and other items liable to local cess.

12. *Cattle Fines and Sales.*—The total amount realized from cattle pounds during the year was Rs. 37,233 against Rs. 37,320 in the year preceding. The small decrease of Rs. 87 is the result of a gross decrease of Rs. 2,031 in Kolar, Mysore, French Rocks, Hassan and Chitaldrug Circles and of a gross increase of Rs. 1,944 in the remaining Local Fund Circles.

13. Under ferry collections and fees from travellers' bungalows, there was a decrease in four Local Fund Circles and increase in the remaining Circles, but the fluctuations were only normal. The figures are given below:—

16. The expenditure incurred during the year by the Public Works and Revenue Departments on the maintenance of roads, bridges and tunnels as well as wells amounted to Rs. 2,83,356 as against Rs. 2,79,222 in the previous year. The details are given in the two statements hereunder :—

17. It is observed that budget grants were exceeded by the Public Works Department in Tumkur, French Rocks, Shimoga and Kadur Local Fund Circles and by the Revenue Department in Mysore, French Rocks, Shimoga and Kadur Circles, while in the remaining Circles the amounts allowed to lapse by the Public Works Department ranged between 0·15 per cent (lowest in Bangalore) and 28·53 per cent (highest in Chitaldrug) of the sanctioned grants, those allowed to lapse by the Revenue Department ranging between 18·41 per cent (lowest in Hassan) and 70·01 per cent (highest in Kolar) of the sanctioned allotments.

18. *Establishments.*—The percentage of establishment charges on account of works executed by the Public Works Department remained the same as in the year previous, *viz.*, 17·5 per cent, while that of the works undertaken by the Revenue agency fell from 9·06 to 8·95. The decrease in the latter case was due to the larger quantity of work turned out by the Departmental agency and the employment of Work Inspectors on fixed salaries for the supervision of works.

19. The statement given below exhibits details of Civil charges incurred in the several Local Fund Circles as compared with those of the year preceding :—

20. *I. Office Establishments.*—In the newly constituted Kolar Gold Fields Sanitary Circle, one clerk was maintained for the clerical and account work of the Board, besides one Sanitary Inspector and two Sanitary Overseers, &c., for out-door work. The cost of the establishments in the Municipal and District Fund Branches of the offices of the Presidents in the remaining Local Fund Circles, which had been strengthened and amalgamated in December 1898, under Government Proceedings No. 6892—L. F. 3-97, dated 6th December 1898, was distributed in certain fixed proportions between the Municipal and District Fund Boards, throughout the year, while under the authority conveyed in Government Proceedings No. 7605-13—L. F. 67-97, dated 4th January 1900, the Boards were entirely relieved from 1st July 1899 of the contribution hitherto made by them towards the cost of Local Fund establishments in the Dewan's and Comptroller's offices, which was ordered to be met from Provincial Funds. This accounts for the variations under this head.

21. *II. Medical Scholarships.*—The entertainment of twelve students annually for three years commencing from the year under review, to qualify themselves for the grade of Hospital Assistants, was sanctioned in Government Proceedings No. 1253-62—L. F. 55-98, dated 24th July 1899. The cost on account of scholarships granted to these and to the students previously entertained and studying in the Madras Medical College was distributed among the various Local Fund Circles in the usual proportions. In addition to this, the cost of scholarships for the two students undergoing training in the Indigenous Hospital at Mysore was also debited to the Mysore Local Fund Circle during the year.

22. *III. Hospitals and Dispensaries.*—Two dispensaries, one at Tyamagondlu in the Bangalore Local Fund Circle and the other at Bannur in the Mysore Circle, were opened during the year. The number of Medical institutions supported from District Funds rose during the year to 106. The following statement exhibits the number of Hospitals and Dispensaries as also the number of patients treated in them and the cost incurred in the several Local Fund Circles during the year as compared with those of the preceding year. The number of patients rose during the year from 525,385 to 602,802, which is, however, much less than the number treated in the year 1897-98 by (729,245—602,802) 126,443, showing that the fall due to the advent of the plague has not yet been made up for, in the number resorting for treatment in Hospitals.

23. The Government regret to observe that the reports under review do not furnish any information in regard to savings under "Contingencies "creditable to the Medical budget under Government Proceedings No. 485-94—15, dated 24th April 1888. The attention of the Presidents is invited to para 40 of Government Proceedings No. 4720-43—L. F. 193-92, dated 23rd September 1892, witha view to their embodying in their future reports statements showing sums saved under contingencies in each Local Fund Dispensary and credited to the Medical budget during the year, together with the aggregate amount credited in previous years and the amount spent therefrom.

24. *Midwives.*—The statement given below shows the number of midwives employed, the cost incurred on their account from District Funds and the number of cases attended to by them :—

The figures above given do not include the particulars of the midwife of the Kolar Gold Fields maintained from Provincial Funds and the Municipal midwives enirely supported from Municipal Funds in certain Municipalities.

25. The expenditure incurred for the up-keep of the musafirkhanas and 3rd class travellers' bungalows during the year was Rs. 17,556, against Rs. 16,556 in the previous year. The report of the Kadur Board furnishes no statement showing the names of bungalows, musafirkhanas, the number of halts made by travellers and the fees collected from 3rd class travellers' bungalows. From the information given in the remaining reports, of which an abstract is given below, it appears that the revenue from fees collected in the Local Fund Circles except-

ing Bangalore, Tumkur, Mysore, Hassan and Kadur, was smaller in 1899-1900 than in the previous year :—

26. For the conservancy of the newly formed Kolar Gold Fields Sanitary Circle, Rs. 1,198-10-4 were spent during 1899-1900 and the expenditure incurred in the remaining Local Fund Circles for village sanitation was less by Rs. 3,348-1-3 than in the previous year. This does not include the amount spent in sinking or improving fresh water wells and the expenditure incurred on village sanitation from Local Funds General from grants sanctioned in Proceedings No. 6210-20—L. F. 93-97, dated 28th November 1899.

Rules for the special sanitation of the Kolar Gold Fields Sanitary Circle were prescribed under Government Notification No. 3241—L. 20, dated 4th September 1899. In the remaining Local Fund Circles, Rules under the Village Sanitation Regulations were ordered to be introduced into all the villages containing not less than 100 houses. The reports of the Mysore, French Rocks and Chitaldrug Circles do not contain information as to whether these rules were introduced into the villages of the respective circles and if so, into howmany of them. The information furnished in most of the remaining reports is incomplete, as they do not embody statements similar to that contained in the report of the Shimoga District Fund Board showing the results of the operations of these rules in rural parts. Such statements with figures for previous years should be submitted with future reports. It is noted that in Bangalore special conservancy establishment to keep the water of the Hessargatta water works free from contamination was sanctioned by Government, and that since the introduction of

the Village Sanitation Rules and the advent of plague, the Revenue and Police officers have been able to enlist the intelligent sympathy and hearty co-operation of people in rural parts in carrying out the necessary works of sanitation. In the district of Hassan the villages are stated to have been kept in a good sanitary condition.

27. *Vaccination.*—As in previous years, the pay of the taluk vaccinators and of the Deputy Inspectors was met from Provincial Funds, while the pay and batta of the peon attached to the Deputy Inspector of Vaccination and the cost of animal vaccination were charged to the District Funds. The report of the Kolar Gold Fields Sanitary Board does not embody the statement showing the number of vaccinators employed and the results obtained, and the omission is probably due to the information having been included in the report of the Kolar District Fund Board. From the information given in the remaining reports it appears that 32,844 persons were vaccinated during the year as against 28,228 in the preceding year.

28. The results showing the number of births and deaths registered in the several Local Fund Circles during the year are exhibited in the following statement. The total number of deaths from all causes in rural parts fell during the year from 76,648 to 73,852, while the number of births rose from 69,493 to 80,076. The largest number of deaths, *viz.*, 34,394 was from fevers against 34,883 in 1898-99 :—

29. The expenditure debited under the head of "Contribution" (on account of the District Fund quota of the cost of construction and repair of dispensary buildings as also on account of the maintenance of District Fund roads in the head-quarter Municipalities) was Rs. 9,423-1-7 as against Rs. 13,398-0-3 in 1898-99. The expenditure shown under this head included Rs. 1,250 contributed from District Funds towards the cost of the Chamaraj Memorial Hall, which was being built in the Shimoga town.

30. *Amrut Mahal Bulls.*—No bulls were maintained in the Bangalore, French Rocks and Chitaldrug Local Fund Circles, and the two which were kept at the district head-quarters of Tumkur, having been found unserviceable, were returned to the Amrut Mahal Department. The number of bulls which remained at the end of the year in Kolar, Hassan and Shimoga was 7, 3 and 1 respectively, but no cost was incurred on their account in the first two districts, as the bulls were entrusted to the care of respectable raiyats, who fed them at their cost and used them for breeding purposes, while the one in the Shimoga district kept at Honnali is stated to have been sold as being old for Rs. 30 and another supplied to the same taluk. The reports of the Mysore and Kadur Boards embody no information under this head, which should be supplied in future reports.

31. *Village School Fund.*—The information given in the several reports, in regard to the expenditure incurred on schools for primary education, which are being maintained from the 24 per cent of the local cess, as required in Official Memorandum No. 554-62—L. F. 96-96, dated 13th July 1897, is embodied in the following abstract statement. During the year under review, 1,715 schools (12 Anglo-Vernacular, 94 Taluk Branch, 1,493 Hobli, 113 Aided Village Indigenous and 3 Normal Schools) with an average strength of 55,591 boys and girls were maintained at an aggregate cost of Rs. 2,08,290. The aggregate income from fees realized from Anglo-Vernacular and Taluk Schools was Rs. 3,946.

The above expenditure includes two-thirds of the cost of the Indigenous Hospital at Mysore and the entire cost of the Industrial School at Mysore. From the report submitted by the President of the Mysore Local Fund Circle

on the working of the school, it would appear that the total strength at the end of the year was 129 or 4 more than in the year preceding. The amount realized by the sale of manufactured articles also rose from Rs. 1,423-10-4 to Rs 2,419-6-3 while the total expenditure exceeded this amount by Rs. 9,479-10-2.

33. The individual statement of works undertaken by the Revenue Department from grants made from Local Funds General are shown in the appended statements, of which a classified abstract is given below :—

REVENUE

Proceedings of the Government of Mysore,

READ—

Correspondence ending with letter No. 167, dated 3rd September 1901, from the Deputy Commissioner, Kadur district, regarding the arrears of interest and of the first instalment of the loan amounting to Rs. 40,879-6-6 due by the Chikmagalur Agricultural Bank, to the end of June 1901.

No. R. 1639-48, DATED BANGALORE, 1ST OCTOBER 1901.

ORDER THEREON—Government regret to observe that the Bank has allowed even the interest due by it, to fall into arrears. This is a default which Government must decline to condone if persisted in any further. The interest due up to the end of June 1901, or the balance of it, which, according to the details furnished by the Deputy Commissioner amounts to Rs. 10,879-6-6, must be paid up in full before the end of October 1901; otherwise, the Bank will run the risk of the adoption of coercive measures being ordered, to sell up the wet lands mortgaged to Government as suggested by him. The Deputy Commissioner will be good enough to explain this order to the members of the Bank, and to submit a further report as early after the 31st of October as possible.

2. If the whole of the interest due is punctually paid, Government are not unwilling to continue to treat this Bank with indulgence and to show it such consideration as owing to its exceptional condition, it may reasonably expect as regards the re-payment of the loan. It must be distinctly understood that the punctual payment of interest is a duty devolving upon every Agricultural Bank which has been accommodated with a loan by Government, and that under no circumstances is any non-fulfilment of that duty excusable.

READ—

The following letter No. 186, dated 15th September 1900, from the Superintendent of Revenue Survey in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments :—

I have the honor to invite the attention of Government to their Proceedings No. 1743-51—R. 570, dated 24th August 1900, appointing the Superintendent of Survey

ex officio Director of Land Records, and to suggest that it is quite possible that Deputy Commissioners may fail, at first, to understand what relations Government intend should exist, with reference to the above order, between themselves and the Superintendent of Revenue Survey. I therefore make the following sketch of what those relations should be, and if Government approve, orders might be passed and communicated to the various Deputy Commissioners.

(2) The Superintendent of Revenue Survey should, in all matters relating to village accounts and inspections of lands, crops and boundary marks, the control of which vests in the Revenue authorities, correspond with, and through the Deputy Commissioner and not, unless specially directed to do so, direct with Government.

(3) The supervision by the Superintendent of Revenue Survey and his Assistants should be entirely independent of, and should in no way reduce, the prescribed supervision by the Revenue Officers. Whatever may be done by the Superintendent of Revenue Survey and his Assistants, in the way of examining village accounts and testing boundary marks, should be regarded as so much additional help to the Deputy Commissioner, to whom all important results will be communicated by the Superintendent of Revenue Survey. These results the Deputy Commissioner can deal with as he deems right. He can incorporate them in his Annual Administration Report or make whatever use he pleases of them. In this way, the Superintendent of Revenue Survey will find it unnecessary to correspond direct with Government on any of the purely Revenue matters dealt with in the proceedings under reference, in short, there will be nothing of a separate Land Record Department.

(4) The up-keep of Survey Records is a purely Survey matter and just as the Superintendent of Revenue Survey will, as above suggested, refer all purely Revenue matters to the Deputy Commissioner for disposal, in the same manner the latter will refer all purely Survey matters to the Superintendent of Revenue Survey.

(5) In the above suggestions, I believe that I have embodied the real intention of Government in passing the Order of 24th August last, and in making use of the services of the Survey Department, and I certainly think that the observance of the relations which I have endeavoured to indicate, as those which should exist between the two Departments, will promote co-operation, mutual aid, and, I trust, cordiality.

(6) If such information as I may be able to give the Deputy Commissioner, as a result of inspection, personal or by my Assistants, receives due attention, I am convinced that good results may be expected.

(7) I am re-calling a considerable number of the Measurers now working in the various taluks, for regular Survey work under my own control, taking as few as possible, however, from districts, like Kadur and Mysore, where applications for coffee cultivation and ordinary cultivation, respectively, are most numerous. The Measurers, who remain in the various districts can be employed upon such purely Survey work as may offer and upon boundary mark inspection, but they should not, without the special orders of the Deputy Commissioner, be employed upon miscellaneous work which has no connection whatever with Survey work or the supervision of the village accounts. Deputy Commissioners should appoint two or more taluks to one Measurer according to the limited number of men I have been able to leave with them. There being no more Revenue sub-division under old Rule XXVII, cancelled, and the sub-division under new Rule XXVII, being very limited, the work of the Taluk Measurers has been greatly reduced.

No. R. 1609-17, DATED BANGALORE, 1ST OCTOBER 1901.

ORDER THEREON—Approved and communicated to the Deputy Commissioners of Districts, for information and guidance.

REMARKS—(a) The discrepancy in the number of villages settled during the two years in the Shimoga, Honnali, Shikarpur and Tirthahalli taluks, requires explanation.
(b) The number of villages settled in the Chanmagiri taluk during 1900-1901 ought to have been given.

2. The period occupied in the settlement of the whole district extended from 6th December 1899 to 8th April 1900, in 1899-1900, while that in 1900-1901 extended from 12th December 1900 to 31st March 1901. In other words, the jamabandi settlement took three months and nineteen days in 1900-1901 as against four months and three days in the previous year.

To settle the jamabandi of the Sorab taluk in 1899-1900 and of the Channagiri taluk in 1900-1901, Messrs. N. Narasimmaiengar and C. Devaraja Urs took respectively 60 and 43 days, which is attributed to Mr. Narasimmaiengar being called away often for other work and the shanbhogs of the Channagiri taluk being engaged in census work.

3. *Examination of Government Village Accounts.*—The Jamabandi Officers tested not less than 20 per cent of the village accounts during both the years and the accounts are reported to have been correctly prepared.

4. *Accounts of Inam Villages.*—The progress made in getting the accounts (Nos. 14 & 15) of these villages was not satisfactory. Orders have been issued separately on this subject in Government Order No. 564-71, dated 5th August 1901.

5. *Pahani Work.*—The percentage of Pahani entries checked by the Jamabandi Officers in 1899-1900, was 10 in the Honnali taluk and Kumsi sub-taluk, 15 in the Shimoga and Tirthahalli taluks and 20 in the Shikarpur taluk, and in 1900-1901 it was 20 in the Honnali taluk. No information on this point has been furnished for the taluks of Sorab, Nagar and Channagiri in the reports of 1899-1900. The Jamabandi Officers of 1900-1901 generally state that the Pahani books were tested, but the percentage so tested is not given, except in the case of Honnali. Greater attention should be paid to this important work.

6. *Inspection of Boundary Marks.*—The boundary marks of all the taluks, except Channagiri, were reported to be in a bad state of repair in 1899-1900; while in 1900-1901, the marks in the Shimoga, Honnali and Shikarpur taluks were found in need of repair and 188 boundary stones were found missing in the Nagar taluk. The Deputy Commissioner has directed the Amildars concerned to pay particular attention to this and to replace the missing boundary stones. The condition of these marks in the district does not appear to be satisfactory. Attention is invited to the instructions contained in Rule 85 of the New Land Revenue Rules.

7. *Inspection of Boundary Marks between the Mysore and the British Frontiers.*—These marks in the Shikarpur, Sagar and Sorab taluks are reported to be in good condition.

8. *Disposal of Darkhasts, Rajinamas and Takrar Takhtas.*—The following statement shows the number received and disposed of during both the years in the several taluks:—

Taluk.	Darkhasts.						Rajinamas.						Takrar Takhtas.

11. *Arrears.*—The arrears in the several taluks, as found at the time of jamabandi, were as follows :—

Taluk.	1899-1900.	1900-1901.
Shimoga	85,597	34,054
Channagiri	5,320	6,701
Honnali	85,377	36,127
Shikarpur . ..	16,058	19,784
Sorab	43,302	1,15,870
Sagar	7,306	88,793
Nagar	41,768	4,901
Tirthahalli	15,777	22,798
Kumsi (sub-taluk)	250	2,114

A large portion of these arrears are reported to have been recovered subsequently; and strict instructions issued to the Amildars concerned to recover the outstandings as early as possible. The arrears in the Sorab and Sagar taluks during 1900-1901 were exceptionally heavy, for which no reasons have been assigned.

12. *Inspection of Waste Lands.*—No information on this point is forthcoming in the reports. It is hoped that the Jamabandi Officers will pay attention to this branch of the work and embody the result of their inspection in the reports in future.

13. *Examination of Raiyats' Receipt Books.*—The number of books examined in 1899-1900 was 115 in Tirthahalli, 100 in Kumsi, 81 in Shikarpur and 12 in Sagar; the reports of the other taluks for this year do not contain any information on this point. In 1900-1901, 93 and 136 books, respectively, were examined in the Shimoga and Honnali taluks; in the Channagiri, Shikarpur, Sorab and Sagar taluks, some books, the definite number of which has not been given, were examined and found correct; and in the Kumsi sub-taluk, books in 13 villages were examined and the mistakes found rectified.

14. *A and B Lists*—These lists were examined by the Jamabandi Officers and instructions issued for revising the lists which were not up to date, in the Shimoga and Shikarpur taluks.

15. *Avenue Trees.*—The vacancies found along certain roads in the Shimoga taluk were ordered to be filled up.

16. *Sanitation and Water-supply.*—It is reported that much improvement has been made in regard to sanitation in the several villages during both the years, and that villages containing over 100 houses in the Shimoga taluk were in 1900-1901 brought under the operation of the Village Sanitary Regulation. The Deputy Commissioner states that the reports of the Jamabandi Officers in this respect are vague, that they have not properly investigated the local requirements of the villages in regard to water-supply, burning and burial grounds and other improvements, and that the Assistant Commissioners have been informed of the defect in view to needful action being taken by them in future.

17. *Tanks.*—Sixty-eight tanks were inspected during 1900-1901, as against 84 in the year previous; and directions were issued to the Amildars concerned to have the necessary repairs executed, where they were observed to be wanting. The Jamabandi Officers should satisfy themselves by further inspection that the directions given by them have been actually carried out.

18. *Vaccination.*—Much progress was not made during both the years in this direction, the reason assigned being the fear entertained by the ordinary ignorant people that plague inoculation would be practised in place of vaccination.

19. The Jamabandi Officers inspected Schools, Dispensaries, Municipal and Local Fund Works, Trigonometrical Survey Stations, &c. The work done by them in these miscellaneous matters calls for no remark.

This branch of the work would have made greater progress but for the cessation of the receipt of allocation statements from the Survey Department pending the decision of Government on the recommendation of the Survey Superintendent (see his letter No. 226 of the 27th September 1898) to abolish "Khalsat" and substitute "Kassar" in the case of all minor Inams.

17. Eleven Land Inam cases have been revised and fresh title-deeds bearing the same number and date issued instead.

18. The revised Final Quit-rent Register of one taluk, *viz.*, Chikballapur, has been received from the Superintendent of the Government Press during the year under report.

Six taluks, noted in the margin, were distributed among the offices of the Dewan, Deputy Commissioners and Survey Superintendent, as per instructions conveyed in Government Proceedings No. 10786-8—R. F. 283-92, dated 12th June 1896.

19. As stated in last year's report, the final confirmation of the minor Inams in the Sringeri Jahgir awaited the passing of the orders of Government upon my letter No. 56, dated 9th February 1899. Those orders were received under Government Proceedings No. 7304-13—R. F. 168-1893-94, dated 15th March 1901, but my Special Assistant being still in the field, the work could not be taken up before the close of the year under report.

20. A complete and concise summary report for the whole Province showing the particulars of operations of the Department from 1868 up to 30th June 1899 has been prepared and submitted to Government with this office docket No. 78, dated 13th April 1901.

21. The addition derived from the operations of the Department during the year under report amounted to Rs. 1,465-3-7, as particularised below :—

Circular letter No. 760—S., dated 18th September 1901, from the Meteorological Reporter to the Government of India, addressed to the Deputy Commissioners of Districts in the Mysore State, through the Director of Statistics in Mysore :—

1. I have the honor to inform you that the Government of India have recently reconsidered the whole question of the collection of rainfall statistics and have come to the conclusion that the weekly rainfall messages sent by all District and Political Officers in India to the Meteorological Department give data which are received too late to be of practical utility for the information of the Government and public. The Government of India have consequently reconsidered the instructions which were given in their Resolution No. 6—3-19-Met., dated 29th August 1890, which was issued to all Local Governments and Administrations, &c., with regard to the submission by District Officers of weekly rainfall telegrams, and have decided that these telegrams shall be discontinued.

2. I have hence the honor to request that you will discontinue the preparation and transmission of these messages from the end of the present monsoon season, so that the last telegram which should be submitted will be that referring to the rainfall of the week ending on Saturday, October 12th, 1901.

3. I have to thank you for the assistance which you have given to this Department in the past in compiling the weekly rainfall statement and for the care with which the various instructions that this Department has issued from time to time, have been carried out in your Office.

4. This decision on the part of the Government of India as a consequence necessitates the cancelling of all the instructions which refer to or are connected with the preparation and submission of the weekly rainfall telegrams, but in no way interferes with the other portions of the rainfall resolution which is referred to above.

No. R. 1833-40, DATED BANGALORE, 25TH OCTOBER 1901.

ORDER THEREON—Communicated to Deputy Commissioners of Districts for information and guidance in supersession of the instructions referred to in para 1 of the letter of the Director of Statistics No. 512, dated 28th February 1891, recorded in Government Proceedings No. 13783—Cir. 292, dated 9th March 1891.

No. R. 1821-30, DATED BANGALORE, 25TH OCTOBER 1901.

ORDER THEREON—The Government notice in the reports read above certain errors of omission and commission, which could have been avoided. In Government Proceedings No. 13931-65—R. F. 236-92, dated 5th February 1894, reviewing the Revenue Administration Reports for the year 1891-92, it was laid down that these reports should be confined to the five items of Land Revenue, Mohatarfa, Sayer, Salt and Stamps; but in some of the reports under review, this direction has been lost sight of and there are paras giving an account of the Administration of the Forest and Abkari Revenues and the progress of "Education." The Government trust that in future Administration Reports, this mistake will not be allowed to recur. Again, some of the reports, especially those of Bangalore, Kadur and Chitaldrug are wanting in some of the prescribed statements and, in the case of other districts, some of the statements embodied are wanting in clearness. To prevent mistakes in future the Government will issue at an early date a circular regarding the form and subject matter of these Annual Reports.

2. *Season and Rainfall.*—The year Vikari (1899-1900) proved, as apprehended by the people, an abnormal year and was marked by a partial failure of both the monsoons, a poor outturn of ragi, the staple food crop of the State, and a large rise in the prices of the chief food grains. But succeeding as it did, a year of ample harvest (1898-99), the year under review passed without causing distress, although at the close of the year test relief-works had to be started in the taluks of Mulbagal, Srinivaspur and Bagepalli in Kolar district and in the Mandya taluk, Mysore district. The agricultural situation during the year was carefully analysed at two critical periods, once in Government Proceedings No. 10-17D, dated 16th September 1899 and again in Government Proceedings No. 8891-8—Mis. 2851, dated 31st January 1900, and it is unnecessary to repeat what has already been described in these Proceedings.

3. *Occupied Area.*—The occupied area during the year as gathered from the Deputy Commissioners' reports was 6,315,872 acres and 26½ guntas against 6,363,452 acres and 13½ guntas during the year previous. The decrease was general in all the districts, except Mysore where there was an increase of 40,303 acres and 17 guntas owing to the introduction of Survey Settlement into Nanjangud taluk during the year.

The net decrease in the occupied area is sufficiently accounted for by the unfavorable season during the year.

4. *Transfers.*—The Deputy Commissioners of Kadur and Hassan have alone furnished the statistics regarding the nature of transfers effected in their

districts, as required in para 23 of Government Proceedings No. 13931-65—R. F. 236-92, dated 5th February 1894. These statistics show that in these two districts the transfers are in the main from agriculturists to agriculturists and that in the Kadur district a net area of 200 acres has passed from non-agriculturists to agriculturists. The Deputy Commissioners of other districts apparently take little interest in the subject, but the Government would draw their attention to the importance of the subject and to the necessity for collection of reliable statistics on the point.

5. *Land Revenue.*—The land revenue demand (exclusive of arrears) for the year amounted to Rs. 97,30,834-5-3. The collections on account of land revenue have not been given separately for four districts but have been mixed up with the collections on account of other items. It appears, however, that, as rega rds the other four districts, the uncollected balances varied from Rs. 10,502 in the case of Chitaldrug district to Rs. 1,84,876-2-0 in the case of Hassan district. The survey assessment in Chitaldrug district, which was fixed about 30 years ago, is very light, the average assessment being Re. 0-8-9 per acre and the wonder is, not that there is such a small balance but that any balance should be allowed to exist at all. The same remark applies to the Tumkur district. The Government are prepared to make all possible allowance for the peculiar circumstances of the year, but at the same time desire to impress on Deputy Commissioners the undesirability of allowing balances to accumulate without sufficient reasons. It appears from the Deputy Commissioners' reports that there are large arrears due from Gold Mining Companies in Kolar, Hassan and Shimoga districts and this point will be referred to the Geological Department.

6. *Mohatarfa, Sayer and Salt.*—The demand for the year under these heads amounted to Rs. 2,19,100-15-4, Rs. 3,81,310-3-5 and Rs. 17,212-0-5, respectively, but the collections have not been given separately in all the reports. The bulk of the Sayer revenue is realized in the Shimoga district and the Deputy Commissioner of this district in reporting the disposal of 13 cases of smuggling during the year states that the article was confiscated only in one case. The Deputy Commissioner's attention will be invited to Circular No. 5, dated 2nd March 1858.

7. *Jamabandi.*—In Kadur and Kolar districts, the jamabandi was commenced in November and finished in January and February, respectively, while in the other districts the jamabandi was finished in some cases so late as May. The Standing Orders (No. 225, dated 8th October 1870; and Proceedings No. 16445-52—R. F. 2-92, dated 5th April 1893), require that the jamabandi should commence soon after Dasara Holidays and end before the collection season. Making due allowance for the extra work and anxiety caused by failure of the monsoons, the Government cannot but consider the neglect of the Standing Orders as unsatisfactory and hope that better results will be shown next year.

8. *Boundary Marks.*—The Government regret to observe that none of the Deputy Commissioners, except the Deputy Commissioner of Shimoga, has submitted the statement required under Proceedings No. 6520-28—R. F. 32-97, dated 17th March 1899. The Deputy Commissioner of Hassan promises to submit a special report, while the Deputy Commissioners of Kolar and Kadur report that no progress has been made in the inspection and repair of boundary marks. The proceedings in question were issued after prolonged consultation with the Superintendent of Revenue Survey and the Deputy Commissioners of districts, and the Government cannot but consider as unsatisfactory the absence of any effort on the part of the Deputy Commissioners concerned to carry out the order. The Deputy Commissioners will submit with the next Administration Report a special report giving the names of the Amildars and Assistant Commissioners of the taluks in which the systematic inspection prescribed by the order has not been carried out. In thus calling for the names of the Subordinate Revenue Officers the Government do not absolve the Deputy Commissioners of their responsibility in the matter.

Boundary marks form valuable "Land Records" and too much attention cannot be paid to their systematic inspection and repair.

9. *Tanks.*—In the districts of Mysore and Tumkur earth-work repairs to major and minor tanks of the estimated value of Rs. 17,000 and Rs. 8,600, respectively. were executed by the raiyats while no information is forthcoming as regards the other districts. The Government are glad to note that the Deputy Commissioners of the above districts are paying attention to this important subject and would draw the attention of the Deputy Commissioners of other districts to the results achieved in the two districts. Mysore is pre-eminently a country of tanks and the Government look to the Deputy Commissioners to keep in repair all tanks brought to standard as well as to induce the raiyats to do earth-work to as many minor tanks as possible.

10. *Loans for Irrigation Wells.*—The information furnished by some of the Deputy Commissioners is scanty, while no information is furnished by the other Deputy Commissioners. The Government consider that the popularization of these loans and the inspection of incomplete wells, for which loans are advanced, are among the most important duties of Revenue Officers, and that the extent to which these loans are utilized and wells are completed should be mentioned in the Annual Reports. It is hardly possible to over-estimate the importance of increasing by all possible means, the area of lands protected by irrigation from drought.

PETITION

Proceedings of the Government of Mysore,

BEFORE THE GOVERNMENT OF MYSORE.

PRESENT:

V. P. MADHAVA RAO, ESQ., C. I. E.

AND

C. SREENIVASIENGAR, ESQ.

Appeal No. 177 of 1895-96.

Petitioner		*Counter-petitioner*
N. Venkatachar	*Versus*	Vishakantaiya.

Subject.

Application for review of Government Order, dated 15th March 1889, declining to cancel the sale of petitioner's land Maji No. 300 of Nagavara village, Closepet sub-taluk, and for the confirmation of the Deputy Commissioner's order, dated 13th May 1890, cancelling the sale of the land in question.

Facts of the case.

The land in question was sold on 15th September 1888 for arrears of revenue and contribution due by the petitioner, and the sale in which the counter-petitioner was the purchaser, was confirmed by the Sub-Division Officer on 19th November 1888. Petitioner appealed to the Deputy Commissioner on 8th January 1889 and submitted a reminder on 4th February 1889, but pending investigation, no reply was given to him. Venkatachar complained of this to the Dewan in a petition, dated 15th March 1889, in which he prayed that on a perusal of the records the sale referred to might be cancelled. The Dewan on the same day rejected the petition observing that there were no grounds for interference with the sale. Copy of this endorsement was sent to the Deputy Commissioner, with docket No. 584, and the order seems to have been also brought to the notice of the Deputy Commissioner in a report submitted by the Amildar. The Deputy Commissioner, however, in view of the irregularities noticed by him, ordered the sale to be held in abeyance on 18th September 1889, and finally, after hearing the parties, cancelled the sale on 13th May 1890, and ordered refund of purchase money to Vishakantaiya and delivery of possession of the land to the petitioner. Vishakantaiya's applications for reconsideration of this order and for compensation in respect of improvements, were rejected by successive Deputy Commissioners and there was no appeal to Government against these orders. The petitioner was put in formal possession of the land in January 1891, but the purchaser Vishakantaiya continued to hold actual possession of it. At the suit of the petitioner, there was at first a decree against Vishakantaiya for value of the Rajapal produce of the land from the date of the cancellation of the sale by the Deputy Commissioner to date of delivery of possession, but on revision, the Chief Court remanded the case for trial of the issue whether the sale had been upheld by Government. The Sub-Judge answered this issue in the negative, but at the same time held that the Deputy Commissioner's order cancelling the sale was *ultra vires*, the Deputy Commissioner having in his opinion no power to revise the order of the Sub-Division Officer. He accordingly dismissed the suit and the matter went again before the Chief Court on the revision side. The Chief Court observed that there were *bona fide* disputes involving debatable questions of law with regard to the right to the land, that the petitioner had not obtained possession of the land and that, until he established his right to the land, he would not be entitled to sue for any damages on the ground of wrongful detention. The Court, however, refrained from expressing any opinion on the observations of the Sub-Judge regarding the rules of the Revenue Law on the subject.

(2) The petitioner thereupon filed a regular suit in the Munsiff's Court. The Munsiff considered that the order of the Dewan finally dealt with the matter and that the Deputy Commissioner's order in setting aside the sale was *ultra vires* and accordingly dismissed the suit on 10th July 1894.

Decision.

The sale was confirmed by the Sub-Division Officer on 19th November 1888. The petitioner's appeal to Government against the confirmation order was rejected on 15th March 1889. In the face of this order, it was not competent either to the Revenue or Civil Courts to re-open the question of sale. Government do not see reason to revise the order of March 15th, 1889. The petition is accordingly rejected.

No. 683—P. F. 32-01, DATED BANGALORE, 1ST OCTOBER 1901.

Copy of the above is forwarded to the Deputy Commissioner, Bangalore District, together with the records received with his No. D. 176, dated 29th August 1899.

Appeal No. 1059 of 1890-1891.

Mr. Syed Ghouse Sha Khadri, Khan Bahadur of Dattatripit.		1. Puttusamaiya of Bisagni Matt. 2. Mr. G. Brito. 3. „ P. Brito. 4. „ W. Brito.

Subject.

Claiming certain lands in Chikmagalur taluk as Inam to Dattatripit Darga.

Facts of the case.

In their Order No. 710-11—7, dated 28th April 1884, the Government decided with reference to the claims advanced by the Dattatripit Darga and Bisagni Matt to coffee lands, that though there was nothing to show how or when the inams came into existence and what their bijavari was, and it was clear that a great part of what was claimed by the makandar was Sirkar land encroached upon from time to time, yet, as a special act of concession, the two institutions should be dealt with in a spirit of liberality in view to maintain their prestige and provide them with sufficient funds for the due performance of the religious and charitable duties devolving upon them. Instructions were accordingly issued for the settlement of the inams on ¼th assessment and submission of detailed statements showing the extent and assessment fixed.

(2) In September 1887, the Manager of the Darga, the present appellant, prayed that the inam to the Darga might be confirmed free of quit-rent, that the Bisagni Matt be not allowed an independent status and that lands added to Kalgave be rejoined to Dattatripit. He was informed by endorsement, dated 13th December 1887, that the orders already passed could not be modified.

(3) In the course of the settlement, the Deputy Commissioner had to enquire into a dispute between the Darga and Mr. Brito regarding certain lands (S. Nos. 292, 293, 294 and 295) of Menasinagundi estate and the claims urged by both the Darga and the Matt in respect of the Mahal lands. Col. Campbell in his order, dated 31st December 1888, considered the evidence adduced on both sides and decided that the four Survey numbers referred to were not part of the Darga inam, but had been held independently of the Darga by one Moindeen Alli and after him by Mr. Brito and that as regards the village of Mahal and the adjoining coffee lands, no evidence of actual enjoyment of them by the Darga had been adduced, while the Matt had produced evidence of enjoyment by it since 1840.

(4) The present appeal is against the said order of the Deputy Commissioner. The Manager of the Darga urges that all the lands shown in the two villages mapped by the Survey Department as Dattatripit No. I and Dattatripit No. II belong to the Darga, that this fact was accepted by the Government in their Order No. 710-11—7, dated 28th April 1884, that the village of Mahal and its lands having been included by the Survey Department in Dattatripit No. II, the Matt has no right to them, that under the said Order of Government, the Matt was given only some lands in Kalgave and that the Deputy Commissioner was not competent to investigate the claims of the Matt and of Mr. Brito.

(5) The map Dattatripit No. II did not represent any existing village of that name. It was prepared by the Survey Department, as explained by the Survey Superintendent, to facilitate the settlement of the Darga coffee inams, and the Matt, from the beginning, had protested against the formation of a new village under that name so as to comprise its lands. The Survey Superintendent states that the formation of the new village does not in the remotest degree affect the present claims of either institution and that the maps can be altered to suit any settlement of the dispute which may be come to.

(6) Proceeding to settle the Inams upon the basis of Col. Campbell's decision, dated 31st December 1888, the Survey Superintendent solicited instructions in regard to the treatment of the very large area of ain kharab and unoccupied assessed lands amounting

to 4,805 and 929 acres, respectively, which had been mapped into Dattatripit No. I and Dattatripit No II. The Survey Superintendent observed, "These ain kharab lands have been mapped into the village, but this *ipso facto* gives no right whatever. I am not aware of anything that the Darga could urge in support of the claim to these unculturable lands beyond the fact that there have been no opposing interests to limit the boundaries." The Government in their Proceedings No. 4173-4—49, dated 15th August 1889, ordered that such occupied lands as were in the enjoyment of the two institutions together with such waste lands, whether arable or unarable, as would make compact and convenient blocks, should be granted to them as whole inam villages and stated that in deciding what waste lands should go to form these inam villages, general topographical features, the reasonable requirements of the Darga, of the Matt and of the communities concerned should all be fully considered. The Government further pointed out that the fact that a lot of land to which the Darga had no claim, had been originally measured into Dattatripit village, was no reason why the same or a portion of it should not be excluded from it and added to the neighbouring villages, restricting the grant to the reasonable requirements of the Darga and Matt. The Deputy Commissioner accordingly submitted a statement to the Survey Superintendent showing the lands proposed to be confirmed to the two institutions and in doing so stated as follows :—"It has been held that the inamdars have not the least legal right to the extensive lands in question which include almost the whole of the upper inner slopes and crests of the Bababudan hills on their eastern and southern aspects. The alleged enjoyment by the inamdars of these wild and unproductive lands has been entirely nominal and they have derived from them but little benefit of a substantial kind. I do not see why Government should divest itself of it rights for ever, over an unnecessarily extensive area of country merely for the purpose of adding to the importance and dignity of the institutions which will remain liberally endowed ever after the deductions suggested by me, in the accompanying statement, have been effected."

(7) The Survey Superintendent in submitting the statement to Government, states that on the whole, both institutions have been treated with liberality as was the desire of Government.

(8) The lands proposed to be confirmed to these institutions according to the above statement are as follows :—

	Occupied coffee lands.		Unoccupied coffee lands.		Ain kharab.		Total.
	Extent.	Assessment.	Extent.	Assessment.	Extent.	Valuation.	
	A. g.	Rs. a	A. g.	Rs. a.	A. g.	Rs. a.	A. g.
The Darga or Dattatripit ...	881 31	1,319 0	529 1	794 4	1,820 31	30 0	3,231 23
The Matt or Mahal ...	661 32	988 12	194 18	291 12	980 24	17 8	1,836 34

Dattatripit No. I has been modified as above by the elimination of tracts measuring 1,355 acres and 38 guntas and constituted a separate jodi village by itself. Dattatripit No. II has been broken up, 12 numbers thereof being added to adjoining Government villages and the rest as well as Bisagni Matt inams in Kalgave Part II, formed into a village called Mahal. It is proposed that the existing rights, if any ; of both institutions over the Galikere tank No. 173 and other holy places should not be interfered with by this change.

(9) The case was heard on five occasions, *viz.*, in 1891, 1893, 1894, 1896 and 1897. After the hearing in 1897, further reports were obtained from the Survey Superintendent and the Deputy Commissioner on certain points, and the case finally came up for hearing on 12th September 1901.

Decision.

The Order, dated 28th April 1884, was not a final order in the sense that it confirmed or granted any particular extent of land either to the Dattatripit Darga or to the Bisagni Matt. The contention of *the Darga* that the whole of the area comprised in the Survey maps of Dattatripit Parts I and II was conceded to it is clearly unsustainable. Nor is there anything in favor of the Darga in the Order, dated 13th December 1887, which is relied upon by it, but which merely declined to reconsider the order of 1884. If any further elucidation of the order of 1884 were required, it will be found in the Order, dated 15th August 1889, which clearly laid down that the Darga's claim to the whole of the arable and unarable waste included in the Survey maps of Dattatripit Parts I and II was inadmissible and that all that could be given to the Darga was so much of that land as would make its inam a compact block and as was sufficient to meet its reasonable requirements. On a subsequent reference from the Deputy Commissioner and the Survey Superintendent,

Government in their Order, dated 12th August 1890, expressed the opinion that the assignments proposed were unduly large and that a curtailment was not undesirable. Then came the final proposal *from the Superintendent of Revenue Survey* that 881 acres and 31 guntas of land under actual occupation plus 2,349 acres and 32 guntas of culturable and unculturable waste be constituted a new village to be called "Dattatripit" and given to the Darga and that 1,836 acres and 34 guntas of land be confirmed to the Matt under the designation of "Mahal" and that 2,700 acres and 4 guntas of waste (arable and unarable) be eliminated from Parts I and II of Dattatripit and reserved to Government. The matt does not complain against this proposed settlement, while the Darga contends on grounds manifestly inadmissible that (1) the constitution of "Mahal" and its assignment to the Matt and (2) the reservation of 2,700 acres and 4 guntas of waste to Government have the effect of depriving it of a large area of land to which its title was recognized by the order of 1884 which was re-affirmed by the order of 1887. The Darga takes its stand entirely upon the Survey maps of Dattatripit Parts I and II and in so doing it assumes what there is no warrant for doing that the Government admitted its claim to the whole of the land included in them which certainly was not the case, the recognition or rather the concession having been limited to the area under actual enjoyment. The assignment proposed is liberal and is in no way unfair to the Darga whose appeals and representations are not entitled to succeed in so far as they relate to the two items above referred to. The other matters on which the Darga has put forward its grievances have been reserved for separate adjudication.

FOREST

Proceedings of the Government of Mysore,

READ—

Note by the Conservator and Forest Secretary, dated the 3rd June 1901, submitting for orders, a Draft Notification embodying rules to regulate the procedure of Forest Settlement Officers.

No. 248—1303, DATED BANGALORE, 2ND OCTOBER 1901.

ORDER THEREON—The proposed Rules to regulate the procedure of Forest Settlement Officers are passed.

2. A Notification as hereunder embodying the Rules will be published in the *Mysore Gazette*.

J. L. PIGOT,
Secy. to Govt., Forest Dept.

To—The Deputy Commissioners of Districts.

NOTIFICATION.

No. 249—1304, dated 2nd October 1901.

Rules regulating the procedure of Forest Settlement Officers.

Preamble. Under Section 76 of the Mysore Forest Regulation, No. XI of 1900, the Government of Mysore are pleased to make the following rules to regulate the procedure of Forest Settlement Officers:—

Procedure when claim is preferred in person. 1. When claimants under Section 5 (*d*) appear and verbally state the nature of their rights, the Forest Settlement Officer shall record the substance of the statements. The Forest Settlement Officer need not wait, before beginning his enquiry, until the expiry of the period fixed under Section 5 (*d*). Claims may, if convenient, be adjudicated upon sooner, although the enquiry cannot be closed until the termination of the period fixed. Written notices specifying the nature of the rights claimed need not be stamped.

2. Copies of evidence, of documents filed and of the decisions recorded by the Forest Settlement Officer may be granted to claimants under the rules regulating the grant of copies under the Revenue Rules.

Presentation of claims. 3. Claims on behalf of a family may be presented by any member of that family; on behalf of a tribe or community by any member of the tribe or community; on behalf of joint claimants or khatedars, by any one of the joint claimants or khatedars; and on behalf of a village, by the patel of the village. Otherwise, save as provided by Rule 4, all claimants must appear in person before the Forest Settlement Officer.

Claimants may employ counsel. 4. Claimants may employ a legal practitioner or other person to appear on their behalf. In such cases, the Forest Settlement Officer will require the production of the usual authority.

5. The Forest Settlement Officer may, at any time, join any number of claims, provided they are all advanced with reference to the same proposed State Forest area, in order to hold a common enquiry; or may sever any claims joined or jointly made in order to hold separate enquiries at his discretion. It shall not be necessary to take, a second time, evidence already recorded in an enquiry relating to another claim. But if, in deciding upon the claim of any person, the Forest Settlement Officer shall admit previously recorded evidence or documents, or shall recite a previous decision in disposing of a case, the person whose claim is thus treated shall be entitled to obtain a copy of such previous evidence, document or decision, as if it had been recorded during the enquiry into his own claim.

Claims in same area may be joined or separated.

6. The Forest Settlement Officer shall examine claimants and witnesses upon oath or solemn affirmation. Claimants and the Forest Officer attending the enquiry may apply to the Forest Settlement Officer to compel the attendance of witnesses or the production of documents.

Examination to be upon oath.

7. The Forest Officer attending the enquiry shall have powers similar to those of a defendant in a civil suit. He may cross-examine witnesses who support claims, may produce evidence to rebut claims and may comment on any documents produced. He may peruse and take copies of any documents or evidence; if he desires to prefer an appeal against any decision, the Forest Settlement Officer shall give him a duly certified copy of such decision.

Privileges of Forest Officer attending enquiry.

8. If the Forest Officer is unable to attend the enquiry before the Forest Settlement Officer, he may forward to the Forest Settlement Officer any statement he may wish to make in writing with any documents he may desire to put in. The Forest Officer may, in such cases, if he wishes, depute a subordinate to explain, if necessary, the statement submitted to him. In such cases the officer so deputed should not be below the rank of a ranger.

9. The Forest Settlement Officer shall, at all times, afford the Forest Officer attending the enquiry all reasonable information regarding the posting of claims for hearing, and shall, as far as is convenient, meet the wishes of the Forest Officer in adjourning enquiries to give time for him to consult the Conservator of Forests.

Forest Officer to be allowed time to consult Conservator of Forests.

N. B.—In the case of claims to rights of occupancy and ownership under Section 10 of the Regulation or in the case of other claims and rights under Section 11, the Forest Officer may, if desirable, address the Conservator direct in his own name and obtain his instructions or advice.

10. The views of the Conservator on any question which may arise, should be placed before the Forest Settlement Officer by the Forest Officer by written note. Such written note shall be read aloud and shall form part of the record and shall be explained to the claimants in their Vernacular language if they do not understand English.

Note of Conservator's views to be filed and explained to claimants.

11. The Forest Settlement Officer shall keep, from day to day, a diary of his proceedings which should be clearly written up and should be initialled by himself every evening, as magisterial diaries are kept.

Settlement Officer's diary; registers of claims.

The claims on which he will have to adjudicate will usually be of two classes:—

(1) Claims to land.

(2) Claims to rights of the nature of easements specified in Section 11 of the Regulation.

He will record the evidence and decide on the claim in each case in the manner prescribed by the Code of Civil Procedure for adoption in appealable cases. He will also maintain two registers, A and B, in the accompanying forms

and will enter in the former all claims as they are received and in the latter all claims as they are disposed of. Register B, or a fair signed copy thereof, must be forwarded to the Government with the draft notification for issue under Section 17 of the Regulation. When a claim comes partly under Section 10 and partly under Section 11, the Forest Settlement Officer will separate those parts of it which fall under Section 10 from those which fall under Section 11 and will enter them in his register as distinct claims.

In cases in which appeals are preferred against his decisions, the Forest Settlement Officer will obtain copies of the appellate decisions which should form part of the Forest Settlement record. A brief abstract of each appellate judgment should also be prepared and entered in the appropriate column of Register B, reference being made in the 'Remark column' to the number and date of such judgment.

Procedure after admission of claim.

12. When the Forest Settlement Officer has admitted a claim, the Forest Officer attending the enquiry will state which course under Section 10 or under Section 13 or 14 it is desirable to follow, and may apply for an adjournment to enable him to consult the Conservator before doing so. The Forest Settlement Officer will hear the claimant whose claim has been admitted, before deciding what action he will take in the matter.

Grant of unreserved land to be approved by Deputy Commissioner, of reserved land to be sanctioned by Government.

13. The grant under Sections 10 and 14 by the Forest Settlement Officer of *unreserved land* or of rights over *unreserved* land (as defined in Rule No. 3 of Notification No. 245—1300, dated 2nd October 1901, issued under Section 35 of the Regulation) in exchange for land or in commutation of rights admitted in a State Forest, requires the Deputy Commissioner's approval. The grant of *reserved* land or of rights over it requires the sanction of Government on the joint recommendation of the Deputy Commissioner and the Conservator of Forests.

Commutation of rights under Section 14 of Regulation.

14. When the Forest Settlement Officer acts under Section 14 and commutes a right of pasture or to forest produce by a grant of money or land, such commutation shall ordinarily be calculated as follows:—

(*a*) If paid in money, at 20 years' purchase of the annual value of the right, as ascertained by the Forest Settlement Officer.

(*b*) If paid in land, the assessment of the land should be equal to the annual value of the commuted right, as estimated by the Forest Settlement Officer.

On conclusion of settlement, statement of admitted rights to be delivered to Forest Officer.

15. When the settlement is concluded and the final notification under Section 17 published, the Forest Settlement Officer shall deliver to the Forest Officer a statement of all rights finally admitted within the reserved forest, specifying their nature, incidents and extent.

Rights of jungle tribes and important public rights of way to be recorded.

16. It shall be the duty of the Deputy Commissioner and of the Forest Officer attending an enquiry before a Forest Settlement Officer, to take especial care that all customary rights known or believed to be enjoyed by any wild jungle tribes and important public rights of way in any of the forests or lands in respect of which the enquiry is being held, are brought to the notice of the Forest Settlement Officer in view to their being admitted and recorded by him. The Forest Settlement Officer is required by Section 7 of the Regulation to enquire into the existence and extent of any rights which have not been formally claimed.

Such rights and privileges shall be recorded by the Forest Settlement Officer in the registers provided in Rule 11, as claims preferred on behalf of the public by the Deputy Commissioner or District Forest Officer or himself.

17. When no Forest Officer has been specially appointed by Government to assist the Forest Settlement Officer, the words "Forest Officer," in the foregoing rules, shall be deemed to mean, as far as may be, the District Forest Officer.

READ—

Note by the Conservator and Forest Secretary, dated 28th May 1901, submitting a draft standing order on Forest Settlement in Mysore, based upon the procedure adopted in the Madras Presidency.

No. 250-7—1305-12, DATED BANGALORE, 2ND OCTOBER 1901.

ORDER THEREON—The following standing order on Forest Settlement is approved, and will be circulated for information and guidance.

1. The ordinary procedure of Forest Settlement is as follows :—

First, selection and preliminary demarcation of the proposed block, and the preparation of a plan and draft notification of boundaries by the District Forest

Officer; *secondly*, inspection, perambulation, correction of map and settlement by the Forest Settlement Officer: and *thirdly*, the preparation of the register of claims by the Forest Settlement Officer, the issue of the corrected map and final notification duly verified and signed by the Forest Settlement Officer and the District Forest Officer, and the final demarcation by the District Forest Officer. The preliminary demarcation need not necessarily be of so permanent a character as the final demarcation, but it should be a definite and continuous line, sufficient to show the Forest Settlement Officer and the raiyats concerned where it runs. The inspection should be such as may be necessary to give the Forest Settlement Officer a general idea of the nature of the blocks which he is about to settle, and to elucidate any points of doubt or dispute in regard to particular claims. The perambulation of the boundaries should be done map in hand, so that the Forest Settlement Officer may become acquainted with the boundaries, be able to settle satisfactorily the disputed points upon them, and he will mark upon the maps the places at which, and the extent to which, correction or revision is necessary, or has been made. The attendance of the raiyats upon these occasions should be encouraged, and actual perambulation should be made in all cases, except in very mountainous localities, where it would be difficult to visit all the boundary marks, and in places where such perambulation is unnecessary owing to the fact that the boundary line follows well defined natural features. The Forest Settlement Officer's camp should be pitched and settlement should be conducted and completed in the immediate neighbourhood of the block concerned, and, so far as possible, the settlement of the whole block should be completed at one time.

2. The details of the several operations are as follows:—

(i) The District Forest Officer will first select and demarcate the proposed State Forest with the aid of village and taluk maps. The demarcation will be preliminary and the marks temporary. The temporary boundary marks may be posts with flags or cross-sticks, &c., or bamboos fixed in small piles of rough stones or mounds of earth. The District Forest Officer will mark on the taluk map or atlas sheets the approximate limits of the proposed block and will have a separate tracing or map prepared.

(ii) With the completed map, the District Forest Officer will draw up the draft notification under Section 4 of the Forest Regulation and forward it with the map to the Deputy Commissioner for transmission to Government.

(iii) The map will, in due course, be returned to the District Forest Officer, who will forward it to the Forest Settlement Officer.

(iv) With the map in his hand, the Forest Settlement Officer, accompanied, when possible, by a competent Forest Officer, will perambulate and inspect the proposed State Forest, and will, as settlement proceeds, with the aid of a surveyor deputed by the District Forest Officer, if such be available, mark on it such changes in the proposed boundary as he may order, after hearing the parties interested and the District Forest Officer on the matter, and such other corrections as the map may require.

(v) The Forest Settlement Officer must invariably record in a note book, in his own hand, at the time, the results of his inspection and perambulation. Lists of differences discovered or of alterations and exclusions to be made must be authenticated by his signature and communicated officially to the District Forest Officer.

(vi) The Forest Settlement Officer's settlement should be made from a camp in the immediate neighbourhood of the proposed State Forest, and he should, as far as possible, complete the settlement of the whole block at one time, so that he may not have to return to it again and that the time of the Forest Officer attending the inquiry may not be wasted.

(vii) The Forest Settlement Officer will draft the notification under Section 17, for the correctness of which he will be held responsible. In framing the description of boundaries for the notification under Section 17, the numbers of the Revenue Survey fields through which the boundaries run should, as far as possible, be given. A sample draft notification is appended.

(viii) Both the map and the notification should be signed by the Forest Settlement Officer and the District Forest Officer to show that both officers have verified their accuracy.

(ix) Both the map and the notification should be prepared and signed at the same time and place at which the settlement inquiry has been held. Where this is for any cause not found possible, full reasons should be given for the adoption of any other course.

(x) When a notification under Section 17 has issued and a block becomes finally a State Forest, the District Forest Officer should lose no time in replacing the temporary boundary marks by permanent demarcation. The permanent marks should be such that the final demarcation accords *exactly* with the boundary as settled and notified.

(xi) The District Forest Officer should then fair-copy the boundaries of the State Forest on a clean copy of the map.

(xii) The District Forest Officer and the Forest Settlement Officer should refer, in the draft notifications (under Sections 4 and 17 of the Forest Regulation) submitted by them, respectively, to the following features chiefly :—

(*a*) surveyed and demarcated village boundaries and their marks ;
(*b*) surveyed and demarcated field boundaries and their marks ;
(*c*) roads, paths, rivers, canals, railways, &c. ;
(*d*) natural features, such as ridges or spurs of well known hills, bank of rivers or streams, &c. ;
(*e*) in the absence of other marks or features, forest boundaries and their marks.

The description of boundaries should start from the north-west corner and go round the block along the northern, eastern, southern and western sides in order, as in the sample draft notification appended to this order.

3. A Forest Settlement Officer is not empowered by the Regulation to review his own decision, but he may correct verbal or clerical errors.

4. Forest Settlement Officers should, as far as possible, accept the Deputy Commissioner's wishes in regard to the course to be pursued under Section 10 of the Regulation ; if they consider themselves unable to do so with propriety, they should refer the matter to the Government for orders.

5. The District Forest Officer is not bound to oppose every claim made, as a matter of course, nor is he required to bring up for admission and record every right of way on behalf of the public, but only such as he considers important.

6. Lands which it is necessary to acquire for Forest Settlement purposes must invariably be acquired under the Land Acquisition Regulation.

7. The District Forest Officer, as representing Government, is competent to move the Forest Settlement Officer, to exclude any portion of a proposed State Forest by the alteration of the notified boundary ; but neither officer has the power to add to the State Forest any land not included within the limits given in the notification under Section 4.

8. The Forest Settlement Officer should, whenever he can spare time, help the District Forest Officer in the preparation of correct plans of the proposed State Forest. He should make all the alterations in the maps which he can without wasting time by sending them back to the District Forest Officer.

9. On the conclusion of the settlement, the Forest Settlement Officer will forward to Government through the Deputy Commissioner, and in respect of each block separately, a brief but comprehensive report upon the main features of the settlement. With this report he will also furnish a statement, in the Form (C) appended, of lands taken up for the block concerned, as well as the draft final notification for issue under Section 17.

10. After publication of the final notification in the *Mysore Gazette*, Deputy Commissioners should not wait for the receipt of the order of Government to publish the proclamation prescribed by Section 18 of the Regulation, but should take action on receipt of the *Mysore Gazette*.

11. For the purpose of Section 18, the Deputy Commissioner is merely required to publish the final notification in the manner described in clause (*a*) of Section 5. The remaining clauses of the latter section are not applicable to the proclamation issued under Section 18.

Secy. to Govt., Forest Dept.

To—The Deputy Commissioners of Districts.

NOTIFICATION.

No. **245—1300,** *dated 2nd October* **1901.**

GENERAL RULES FOR THE MANAGEMENT OF DISTRICT FORESTS, AND OTHER LANDS AT THE DISPOSAL OF GOVERNMENT.

The Government of Mysore are pleased to make the following rules under Section 35 of the Mysore Forest Regulation (1900) for the regulation of the use of the forest produce and of the pasturage of lands at the disposal of Government and not included within the limits of—

(*a*) a State Forest;

(*b*) a Village Forest;

(*c*) a grazing kaval managed by the Amrut Mahal Department; or

(*d*) a Municipality, in respect of lands assigned to it.

These rules shall apply to all districts, but shall not affect the existing raiyats' privileges rules for the districts of Shimoga, Kadur and Hassan, so far as they relate to taluks and parts of taluks specified therein as "Malnad."

1. Subject to all rights now legally vested in individuals and communities, the use of the pasturage and of the forest produce of land at the disposal of Government shall be regulated by the following rules within the limits set forth in the preamble.

2. Land at the disposal of Government may, for the purpose of these rules, be classed as follows :—

(*a*) Land of which the Government has acquired the ownership or possession by purchase, lease or otherwise.

(*b*) Assessed but unoccupied land.

(*c*) Unassessed and unoccupied land.

(*d*) Land assigned as free grazing ground or for other communal purposes.

3. "*Reserved land*" includes all land notified under Section 4 of the Forest Regulation and any area specially declared to be reserved land in the manner prescribed in Rule 6.

Land at the disposal of Government which is not set apart as "*reserved land*" (or otherwise specially assigned by Government) will be held to be "*unreserved land.*"

4. Trees of the various species shown in the subjoined table are "reserved trees" wherever found, whether in reserved or in unreserved land. Such of the remaining trees as it is considered desirable to conserve will be divided into classes in accordance with the local requirements of the several districts, and lists of such trees and the seigniorage to be charged thereon will be published from time to time, under the sanction of the Government, in the *Mysore Gazette.* These trees will be called *classified trees,* and any tree not included in the lists published, as prescribed above, or in the schedule of reserved trees, will be called "*unclassified trees.*"

10	Chloroxylon swietenia ..	Satin wood ..	Huragalu.				

Save as provided by Rule 11 no person shall fell, uproot, lop, burn or otherwise damage or remove any reserved trees.

5. Save with the written permission of the Deputy Commissioner or other officer duly empowered, no tree, shrub or bamboo shall be cut or burnt, nor shall any grass or other forest produce be burnt, within (*a*) 50 yards of the banks of a hill stream or any of its feeders; (*b*) a radius of 50 yards from any spring of water; or (*c*) 50 yards of any public road.

6. So much of the four classes of land, specified in Rule 2, as the Deputy Commissioner of the District and the Conservator of Forests consider should be placed under special protection under Section 35 (iii) of the Regulation, either in view to the constitution of a State Forest or to the safeguarding of the supply of timber, of fuel, or of fodder, or for purposes of protecting hill sides, or water supplies, may be declared to be "*reserved land*" by a Notification of Government published in the *Mysore Gazette.*

7. On land declared "reserved land" under Rule 6, no fresh clearing shall be made for cultivation, or for any other purpose, without the permission of the Deputy Commissioner, which shall only be granted with the concurrence of the Conservator of Forests.

8. After the limits of any reserved land have been duly notified in the *Mysore Gazette,* no person within such land shall—

(*a*) set fire to any trees, timber, grass or other forest produce, or shall kindle or keep burning any fire except at such places and subject to such precautions as may be prescribed by the Deputy Commissioner or other person duly authorized in that behalf;

(*b*) fell, remove, girdle, mark, lop, tap, uproot or burn, or strip bark or leaves from or otherwise damage any tree growing on such land, or use or injure or remove any forest produce found thereon, unless such person be duly authorised in this respect.

Provided that, subject to such special rules as may hereafter be issued in respect of any such land, the words "forest produce" in the foregoing clause (*b*) shall not be held to include grazing on land assigned as free grazing ground,

nor shall it include the following produce which may be removed for the *bonâ fide* home use of the neighbouring villages :—

(*a*) Fallen dry wood (other than of the reserved kinds) for fuel.

(*b*) Grass cut for fodder or grazed by "cattle" (not being goats or kids when the pasturage of the area concerned has been sold under the hulbanni system or otherwise to the villagers collectively.

9. On all unreserved land in any village, the cutting of grass for thatching, the collection of dry wood other than of the reserved kinds, thorns, leaves of trees and shrubs that are not reserved, and the felling of trees other than all trees required for house-building as well as those included in the lists of reserved or classified trees, will be allowed free of charge and without permit, provided that the grass, wood, thorns, leaves or trees are required by the inhabitants of that or of neighbouring villages for agricultural or domestic use and not for sale or barter. On all unreserved land, dealt with under the hulbanni system or such other system as may be approved by Government, grazing of "cattle" will be allowed subject to the payment of the fee or price fixed.

No person shall set fire to any trees, timber, grass or other forest produce in any unreserved land.

10. For the purpose of Rules 8 and 9, the Revenue officials of the taluk and especially patels of villages will be held responsible for seeing that the privileges of obtaining forest produce free of payment or at reduced rates are not abused. Patels of villages shall interfere for the purpose of preventing, and shall report, any breach of these rules of which they may become cognizant. In the case of disputes the Deputy Commissioner will, after considering the area and productive capacity of the forest concerned, decide which are "neighbouring villages" within the meaning of the rules.

11. Subject to the exceptions provided for in Rules 8 and 9, the felling, conversion or removal of trees or timber and the collection or removal of other forest produce in reserved or unreserved lands may be effected in one or other of the following ways, but in no other way :—

(*a*) Departmentally, that is, by the officers of the Forest Department having control over the produce or by persons acting under the immediate superintendence, control or orders of such officers.

(*b*) By persons holding permits duly issued by a Forest officer or other authorised person.

(*c*) By any person holding the right under a lease, contract or permit granted by the Deputy Commissioner or by any officer duly authorised by him.

12. The Deputy Commissioner may appoint, by notification in the *Mysore Gazette*, any person or class of persons, by name or by virtue of his office, to issue or recover permits under the foregoing rules, and may also prescribe tannas or places at which the timber or other forest produce shall be brought for examination and where permits shall be checked or recovered or way permits be issued. Except as provided in Rule 9, permits must be obtained before any felling, conversion, collection or removal is commenced. Permit-holders must comply with the regulations of the Forest Department and the conditions entered in the permit.

13. No person shall boil catechu, distil wood-oil, or burn lime or charcoal in any reserved or unreserved land except in such places as may be specially set apart for the purpose by the Deputy Commissioner.

14. Quarrying in land at the disposal of Government will be regulated by the Rules under the Land Revenue Code, care however being taken by the Deputy Commissioner to see that it is not ordinarily permitted in places where damage is likely to be caused to forest growth.

15. Any breach or infringement of Rule 4, 5, 7, 8, 9, 11, 12, 13 or 14 will render the offender liable to imprisonment of either description as defined in the Indian Penal Code, which may extend to one month, or to fine which may extend to Rs. 200, or to both.

Note by the Conservator and Forest Secretary, dated the 6th June 1901, suggesting the publication of preliminary lists of "classified trees" on which seigniorage will be levied under the General Rules for the management of District Forests and other lands at the disposal of Government.

No. 246—1301, DATED BANGALORE, 2ND OCTOBER 1901.

ORDER THEREON—With reference to Rule 4 of the General Rules for the management of District Forests and other lands at the disposal of Government, published under Notification No. 245—1300, dated the 2nd October, 1901, a notification as hereunder, containing preliminary lists of "classified trees" on which seigniorage will be levied and for which permits will be issued under the aforesaid General Rules, will be published in the *Mysore Gazette*.

2. For the present, the existing seigniorage rates, or such rates as the Deputy Commissioner and the District Forest Officer may consider suitable for the time being, will be levied in respect of the "*classified trees*."

3. Copies of the seigniorage lists for the adjoining districts of the Madras Presidency are herewith forwarded for the information of Deputy Commissioners, who are requested, in concert with their respective District Forest Officers, to consider the preliminary lists now published to propose additions to or excisions therefrom and to suggest rates of seigniorage for each tree or for groups of trees. Upon receipt of reports from the Deputy Commissioners, revised classified lists, with rates of seigniorage to be levied, will be notified in the *Mysore Gazette*.

MUZRAI

Proceedings of the Government of Mysore,

READ—

Letter No. A., dated 19th October 1901, from the President of the Managing Committee of His Highness the Maharaja's Sanskrit College, Mysore, submitting the resolutions of the Committee relative to the results of the Vidvat Examination held this year.

No. 591-2—MUZ. F. 25-92, DATED CAMP MYSORE, 21ST OCTOBER 1901.

ORDER THEREON—It is observed that out of the 21 candidates who applied for the Vidvat Examination in its various branches, six absented themselves, one failed and fourteen passed.

2. In regard to the rewards recommended, Government observe that it is now proposed to grant rewards to those who have passed in Part I alone of the examination in the various Shastras, excluding Vedanta, two-thirds being given for Part I and the remaining one-third being reserved for presentation to the candidates on their passing in Part II and thus completing the examination. The existing practice of not giving any reward for Part I of the examination alone but of giving the entire reward on the completion of Parts I and II has the advantage of ensuring a candidate's completing his studies in the Shastra he has taken up. A proposal, however, to divide the rewards between Parts I and II was made to the Government in the Committee's Resolution, dated 6th March 1900, received with the President's letter No. 31 of the 11th May 1900, but Government refrained from passing orders hitherto as the matter required consideration. In deference, however, to the Committee's present recommendation, Government are pleased to sanction the grant of rewards for passing in Part I alone of the examination in the Shastras, but would restrict the reward to one-third of the total amount in each case instead of fixing it at two-thirds as recommended by the Committee. Similarly, the rewards recomended in the case of those who have passed in Part I only of the Advaita Vedanta Examination will be reduced from two-thirds to one-third, the principal to be adopted in all cases being that, when an examination is to be passed in two parts, the reward for passing in one part alone is to be one-third of the total sum fixed, the remaining two-thirds being given when the other part also is passed and the whole examination is completed.

3. A list of rewards framed in accordance with the above remarks is appended and the disbursement of the amount thereof, *viz.*, Rs. 975 is hereby sanctioned.

4. The rewards of Rs. 75 each proposed to be given without the test of an examination, to Pandit Subramanya Sastriar of Varahur in the Tanjore district, and Pandit Tirumala Thathacharya of Tirupati, North Arcot district, for high proficiency in Vedanta, are sanctioned in deference to the recommendation of the Committee, with the observation that the selection for such an honor should be based upon grounds of exceptionally high merit.
